

"Pap & Snack" Clinic for the Busy Woman

With our "Pap & Snack" clinics twice a week, a woman can get a thorough yet quick GYN Exam during a busy woman's lunch break. "Pap & Snack" includes:

- A Basic GYN Exam in 45 minutes,
- An option of pre-ordering a gourmet boxed lunch, and
- An appointment is required.

Health Care with Compassion, Dignity, and Respect for All Women

The Feminist Center offers specialized counseling and clinical services to address specific physical and emotional needs of women. Some of these programs are:

- Culturally Sensitive Counseling – A woman's cultural framework, which reflects her religious, spiritual, and moral beliefs, affects each woman's life decisions. We are committed to counseling that is woman-centered, stepping insider her framework and respecting her life view, providing her a safe place to explore her health care decisions.
- Sensitive Care for Survivors of Physical Violence or Trauma -- For survivors of sexual violence or physical trauma, receiving a pelvic exam may 're-traumatize' a client. The primary objective in facilitating survivor sensitive care is to validate the woman's experience(s) by giving her as much control as possible over her appointment process and the exam.
- Teen Empowerment – This program is designed to empower teens to make healthy decisions about their bodies and sexual health. Our anonymous phone counseling and education fills a critical need for accessible information. Our first time exam program demystifies a GYN exam while emphasizing the importance of regular screenings and the need for safer sex and birth control and if and when they become sexually active.

We are able to bill your insurance, and we accept insurance upon prior authorization.

GYN
& WELLNESS
SERVICES

GYN AND WELLNESS SERVICES — *Leading the Way in Women’s Health Care*

Since 1977, the Feminist Women’s Health Center has earned an outstanding reputation for providing quality care and community education, while working unceasingly to improve the health of all women. As Atlanta’s leading non-profit feminist women’s healthcare resource, we continue to meet our mission to empower women through service, education and advocacy. The Feminist Center embraces an overall holistic approach to comprehensive gynecological health care and wellness. We believe that education and knowledge are vital components in a woman’s ability to make health care decisions, thus making the most of self-care and wellness.

The Feminist Center welcomes women of all races, ethnicities, sexual orientations, socio-economic status, or abilities. On a typical day, four languages are spoken and translators can be arranged, if needed. We celebrate the transitions in women’s lives with services for the teen years to the *Center of Life* with individualized mid-life services, while offering supportive and affordable comprehensive GYN health services.

IT’S YOUR CHOICE ANNUAL EXAMS

At the Feminist Center, we understand that a woman’s health care needs change and vary throughout her life. Thus, this begins with a basic GYN exam that includes:

- Pap Smear
- Breast Exam
- Bimanual Exam
- Heart & Lung Screenings
- Basic Lab & Urine Screens

Then, each woman has the freedom to individualize her health care by choosing the particular GYN and wellness services that suit her needs, including the following services:

- **STD Testing and Treatment**
- **HIV/AIDS Testing and Counseling**
Anonymous or confidential
- **Safer Sex Supplies**

- **Family Planning Supplies, Education & Counseling**
 - Birth control pills
