Feminist Women's Health Center | 1924 Cliff Valley Way | Atlanta, GA 30329

How would
you
say it?

"Silence, violence and reproductive oppression need to end."

"I believe that all children deserve to be wanted, loved and nurtured."

"I believe pregnancy and mothering are a human right."

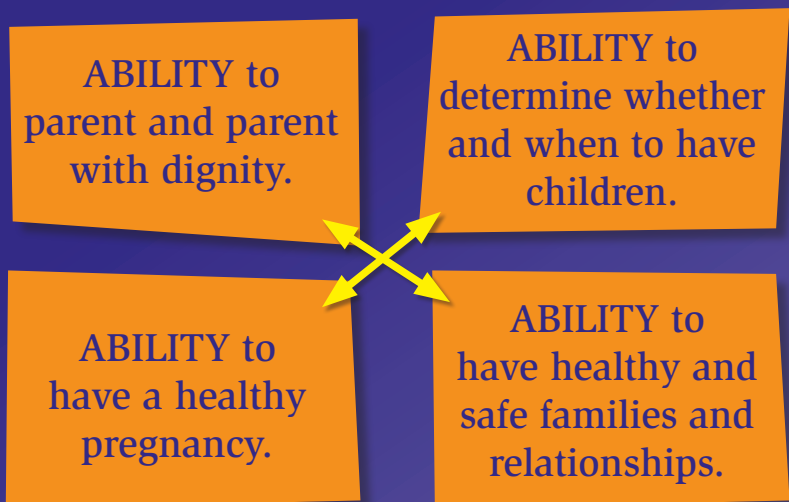

"I believe that I am more than just my uterus."

We need your voice to help us

**Educate,
Engage,
Mobilize and
Advocate . . .**

for an expanded vision of reproductive health and rights*:

The right and access to safe and legal abortion still needs support. However, this is only one issue that women and families face. There are many overlapping issues involved, and we need to expand our vision to best advance and protect reproductive health and rights.

We can no longer stand silent while numerous policies in our state impede access to reproductive health care. Please help us to remove the red tape — to empower our communities, our elected officials, and ourselves.

The first step is to join our “Voice Beyond Choice” campaign. When your voice and efforts join with others, you can make a tremendous difference in advancing freedom, equality, justice, and human dignity for all.

It’s time to speak up.

*The “four cornerstone principles” were stated in an article entitled “More than a Choice” by Jessica Arons, written for the Center for American Progress (www.americanprogress.org).
